

Readiness To Participate – Third Party Verification

Dear Service Provider,

The person presenting this form for your consideration is interested in completing a formal VET training course in the area of mental health. In addition to the anticipated demands of training, course materials, assessments and group activities for these courses encourage a high level of personal reflection both independently and in the classroom environment. This can be a challenging process for our students, and may be inappropriate for those who are not adequately informed and prepared.

To effectively manage our duty of care to students completing these courses, we require a third party verification of their readiness. It is not the purpose of this document to provide legal clearance in relation to the student, but rather supporting information from an appropriate source well known to the student.

This form is to be completed by an employer, personal case worker or treating doctor.

I hereby assert that _____
Insert student name

- has discussed with me the difficulties that may be involved with study and in particular working through sensitive and challenging course materials.
- has a plan in place to ensure that he/she is personally supported during the period of study

I believe that _____
Insert student name

- is suitably prepared to undertake formal training in the area of mental health at this time
- is suitably prepared to undertake work and/or volunteering activities in the mental health sector at this time.

Signed: _____ Date: _____

Name: _____

Relationship to student: _____
